

As Glade Creek Students engage in global learning, they develop a combination of attitudes, skills and knowledge that demonstrate 10 core competencies. Students also participate in a variety of activities listed below.

Student Activities include:

Global Citizen of the Month

Awards Program

Birthday Recognition

Beta Club

Quarterly Celebrations

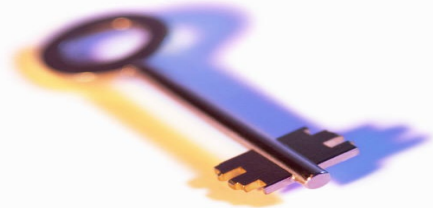

Battle of the Books

Envirothon

Student Ambassadors

Spelling Bee

Field Trips

Motto: "Today, I will do my best at Glade Creek School."

Our students scored at the "exceeded growth" level for both 2018 & 2019 on NC State Tests. These state testing results have placed our student growth achievement in the top 15% of North Carolina students on both 2018 and 2019 state tests !

Students earned a "B" on their 2019 North Carolina Report Card !

Welcome

Welcome to Glade Creek Elementary, home of the Mountaineers! We take pride in our performance and how learning is supported within our school. Students have a full level of support with our staff, parents, and the local community that places a great emphasis on our mission statement.

Mission Statement

At Glade Creek School we offer a positive environment that supports the whole child.

Glade serves a wide range of students starting in Pre-K up through 8th grade. Students benefit from the access to related arts: Art, Media, Music, and classroom guidance.

The staff teaches student through the lens of a multi-tiered system of student support, intervention, and enrichment programs for both academics and behavior. Our Student Support Team provides students, families, and staff with a range of supports to help through periods of difficulty beyond academics.

Family nights include student presentations, STEM activities, science activities; and reading night.

Staff Qualifications

Glade Creek teaching staff are 100% fully licensed. Years of experience reflect 65% of our staff with 10 or more years while 35% range between 1 and 10 years. Thirty percent of our staff have advanced degrees or are national board certified. We have a very low teacher turnover rate.

Academic Focus

Student learning is differentiated to address specific needs. Teachers engage in weekly planning meetings three times per month to support student achievement. Staff members have received training in Global education; data use; and writing training. Technology use will be used in a formative way for the second year by using NC Check-ins and M-Class assessments. Data driven decisions are made to support instructional plans.

We place an emphasis on technology with smart boards in each classroom, updated computer lab, mobile carts, iPads, and utilize student response technology. Our website and connected phone system keeps our families and staff informed about upcoming

events. Grade level communication is maintained by weekly folders and certain newsletters home. In 2018-2019 we launched our global initiative to share the world with our students; and to use technology for teacher professional growth. The ultimate goal is for our students to engage and have excursions on a variety of technology platforms with other classrooms.

History

Glade Creek Elementary is part of the Alleghany County School System. The school was built in 1956. We are located in Ennice, NC situated adjacent the Blue Ridge Parkway. We are convenient to the interstate, businesses, and restaurants.

The staff at Glade Creek Elementary are grateful to have the opportunity to work with its students each day. Providing a wonderful learning environment and quality instruction with a focus on core teaching to students that makes strong connections to our student's world is our priority.
