## Superintendent Message

Chad Beasley, superintendent for Allegheny County schools. Good evening,

Today the governor issued an executive order that schools will remain in the current status of closed for instructional purposes until at least May 15<sup>th</sup>. This decision was not made lightly but is the correct decision based on this rapidly evolving crisis. During this crisis, we will continue offering meal opportunities at all four schools with drive thru service, as well as, continuing to deliver meals for those who have transportation issues. On-line learning opportunities will continue as planned as we continue this journey together. If you are having trouble navigating the on-line opportunities, I strongly encourage parents and guardians to reach out to your teachers and principals for assistance. Our top priority continues to be that we work to meet the needs of all of our students. I want to say a special thank you to all of the staff at all of our schools for the hard work and dedication you have put forth this past week as we all work together serving our students and community. Again, I thank everyone for their patience

and support as we work through this process. Thank you and have a good evening.
