

All schools will participate in federal National Child Nutrition Programs and will receive commodities donated by the United States Department of Agriculture. All federal and state revenues will be accepted and applied to maximize the use of such funds for the purposes of providing nutritional meals to students at the lowest possible price.

A. OPERATIONAL STANDARDS

The student food services program will be operated in a manner consistent with board goals and board policy. The program also will be operated in compliance with all applicable state and federal law, including requirements of the National School Lunch Program and all federal guidelines established by the Child Nutrition Division of the United States Department of Agriculture. Specific legal requirements that must be met include, but are not limited to, the following.

1. No child will be discriminated against because of race, sex, color, national origin, disability, age, or eligibility status for free and reduced price meals.
2. The student food services program will meet safety and sanitation requirements established in local, state, and federal rules and guidelines for school food service programs.
3. Menu preparation and purchasing will be consistent with applicable state and federal rules and guidelines.
4. Banking, record keeping, budgeting, and accounting will be conducted in accordance with generally accepted practices and procedures, as dictated by the School Budget and Fiscal Control Act and in accordance with state and federal guidelines.
5. Commodity foods donated by the United States Department of Agriculture will be used and accounted for in accordance with federal regulations.
6. Preference will be given in purchasing contracts to high-calcium foods and beverages, as defined in G.S. 115C-264.1.
7. Child Nutrition Program (CNP) funds will be used only for the purposes authorized by law. Indirect costs, as defined by law, will not be assessed to the CNP unless the program has a minimum of one month's operating balance.
8. The price for meals will be determined in accordance with federal law.
9. Nonprogram foods will be priced to generate sufficient revenues to cover the cost of those items. A nonprogram food is defined as a food or beverage, other than a

reimbursable meal or snack, that is sold at the school and is purchased using funds from the child nutrition account.

10. All school food services will be operated on a non-profit basis for the benefit of the CNP. School food services are those that are operated from 12:01 a.m. until the end of the last established lunch period.
11. All income from the sale of food and beverages that is required by law or regulation to be retained by the CNP will be deposited to the CNP account and will be used only for the purposes of the school's non-profit lunch and breakfast programs. All funds from food and beverage sales not otherwise required by law to be deposited to the CNP account will be deposited into the proper school account in accordance with guidelines developed by the superintendent or designee.
12. School food services will not sell foods of minimal nutritional value.

The board authorizes the sale of other "competitive foods" during the lunch period in compliance with law, provided the foods meet all applicable standards, including those established under policy 6230, Nutritional Standards for Food Selection.

B. MEAL CHARGES

Students who are required to pay for meals are expected to provide payment in a timely manner. The board recognizes, however, that students occasionally may forget or lose their meal money. The board therefore directs the superintendent to develop a procedure to manage situations in which students are unable to pay for a meal on a particular day. The superintendent shall ensure that federal child nutrition funds are not used to offset the cost of unpaid meals and that the CNP is reimbursed for uncollected student meal charges prior to the end of the year.

The superintendent or designee shall establish other procedures as appropriate to help ensure compliance with board policy and legal requirements.
